

How to keep your job

Employ **Older&Wiser** to do it for you (well, some of it) on a contract or project basis.

WE HAVE talent, brains, enthusiasm and wisdom. A rare combination of skills almost never found in an Australian company these days!

We can clearly define business or marketing problems, create solutions, write and implement plans and strategies, oversee or undertake day-to-day business activities, work miracles and save you money.

And don't forget there's no such a thing as a job for life any more. So, not only will we be able to help you now, but there's always a place for you should you ever need it in the future!

Sound too good to be true? Well it isn't, not if your main concern is profitable business growth.

However, if your only aim is to employ the flower of youth no matter how lacking in creativity, skill or wisdom, then that ain't us.

We are 61 - old and decrepit? Not

Not only are we at the height of our powers,

but we can draw on the huge array of talents lying dormant in the brains and bodies of other Older&Wiser counsellors whose skills are under-utilised.

Use us on a project basis. Put us on a contract for three months, or perhaps we can fill in

while permanent staff are away. Maybe we can be given the overflow work that no-one ever seems to get around to. Perhaps you want a different point of view, or a presentation on the strategic options that confront your competitors.

Our experience is vast. Over the past 35 years we have worked at virtually every level from account executive to managing director in local and international, private and public companies.

We have experience in finance, insurance, telecommunications, computers, retail, FMCG, travel, liquor, household products, grocery and many more.

Call now, but don't forget to speak loudly!

The Chairman and Managing Director crack another tough problem
